

# ISP ONLINE INTERIM MEETING

April 26-29<sup>th</sup>, 2021

Dear participants,

During the first ISP Online Interim Meeting we have had three wonderful days with sessions of high scientific level and many interesting topics for all of us.

On behalf of the organizer committee, I want to express my gratitude to the speakers, thank you for your effort and commitment to our Society. During these three days, you have transmitted new ideas to apply in our labs, you have facilitated new collaborations in between our labs. You have exposed in a very clear way the different applications of plastinated specimens, giving to the participants many new ideas to increase the tremendous potential of plastination as a tool in our anatomy teaching and research activity.

ISP members use your password to access the private area of our website, we will use it for all our topics discussions and new information such as the videos of this international meeting.

Remember that we have an appointment ahead, our next International Conference that will be host by the Universidad de La Frontera, Temuco, Chile in July 2022, with Dr. Nicolás Ottone as the main organizer.

Thank you very much and I hope to see you all in Chile next year.

**Rafael Latorre.**

**ISP president**
